

Challenge Your Inner Data Monster: Data Discovery and Analysis

Project Title	Challenge Your Inner Data Monster: Data Discovery and Analysis
Project Summary	Discover and analyze data on a variety of topics in the realm of human capital management.
Country	United States
Agency	Department of State
DoS Office	A/EX
Post	N/A
Section	N/A
Number of Interns	3

Project Description

The Executive Office (EX) of the Bureau of Administration and Bureau of Information Resource Management champions data-driven decision making through data analysis and effective visualizations related to human capital management. Our dashboards have been very successful in providing business value to senior management. It's time to take our efforts to the next level.

A/EX is building a self-motivated team to curate data related to topics on human capital management for comparative analysis. The team will receive challenges to find data and research topics related to building and realty costs, cost of living, demographics, diversity, and more. We're eager to work with those who have experience using data visualization tools, such as Tableau.

Desired Skills Interests
